Subject: ABA SEER Fall 2018 Conference -reminder to reserve hotel room and register

All:

I'm told that the Section's block of rooms at the Marriott Marquis San Diego Marina is close to being full. If you have not already done so and would like to take advantage of the discounted rate, please make your reservations [here](#).

Also, registration for the conference is now open. As panelists, you can attend for free on the day of the panel – October 19, 2018. Please contact Allison Read at Allison.Read@americanbar.org to register for October 19 only.

If you're interested in attending the entire conference, you can take advantage of the discounted rate and register online [here](#).

Please let me know if you have any questions.

Thanks,
Gary

Subject: Army Issues Memorandum to Empower States & Tribes in their Permitting Authority
Attachments: smime.p7s

Dear NACEPT Assumable Waters Committee - Please see recent news release below.

Thank you.

Cindy S. Barger
Environmental Planner
Project Planning and Review
Office of the Assistant Secretary of the Army (Civil Works)
441 G St. NW, Rm: 6Q91
Washington, DC 20014
Tel: (202)761-0038
Cell: **Ex. 6**

Washington (August 7, 2018) - The U.S. Army today released a memorandum taking initial steps to empower States and tribes in assuming Section 404 permit authority under the Clean Water Act (CWA). In taking on this authority, States and tribes can accelerate job-creating economic development and infrastructure, all while continuing to protect the environment.

Letters are also being sent to all fifty State Governors and the tribal leaders for all the Federally recognized tribes encouraging them to assume this traditional Federal permitting ability.

"This action supports this administration's dedication to infrastructure by providing states and tribes the clarity they need to better balance their environmental protection mission with their economic development goals," said R.D. James, Assistant Secretary of the Army for Civil Works. "In my view, implementing Section 404 in this clear and decisive manner not only adheres to the language of the statute and the intent of Congress when enacting Section 404(g), but it is also in the overall best interest of the Army and the regulated public."

Background: Under Section 404 of the Clean Water Act, a permit is required before dredged or fill material can be discharged into navigable waters or certain wetlands. Activities undertaken using such a permit are infrastructure projects like highways or airports, mining operations, dam or levee construction, or other economic development. To date, only Michigan and New Jersey have assumed administration of the Section 404 program - the Army Corps of Engineers retains permitting authority for the rest of the country.

The guidance memorandum issued by the Assistant Secretary of the Army for Civil Works is consistent with the Assumable Waters Subcommittee's majority view regarding the scope of retained waters under Section 404(g). The memorandum will ensure that the scope of waters that must be retained by USACE under Section 404(g) of the CWA is properly limited to waters that are jurisdictional under Section 10 of the Rivers and Harbors Act of 1899, excluding waters that have only had historical navigation use, and including wetlands adjacent to Section 10 waters from the high-water mark of the water landward to an administrative boundary agreed upon by the state or tribe and USACE.

By clarifying what waters States and tribes may assume, the guidance addresses a key barrier to State and tribal assumption. When States and tribes assume the Section 404 permit program, they protect the waters to the same level as the federal government and often increase efficiencies and remove redundancies in permitting processes. Many States have determined that State and tribal implementation of the Section 404 permit program saves substantial money as they are able to incorporate the review process into their existing programs. This action supports infrastructure investment as removal of redundancies in State/tribal and federal reviews will help provide for more timely completion of permit review requirements.

This memorandum expressly does not affect the scope of "waters of the United States" under the CWA.

The memorandum and more information is available at: <https://www.army.mil/asacw/>

EXTERNAL EMAIL - THINK BEFORE YOU CLICK

I'm on vacation this week, but I'd hoped to be in a position to participate in this call from the road. Based on my experience with a call earlier this morning, there's a decent chance I won't have cell phone reception at the appropriate time. I suggest we attempt the call. If I can't get reception, that will be obvious within a few minutes after the call begins. Gary, I assume we can then reschedule. I'll be back in the office by August 3.

I'm sorry for the inconvenience.
Kristy

Panel Information

Date: Friday, October 19, 2018

Time: 10:30 a.m. to 12:00 p.m.

Description: This year began with significant court decisions and unprecedented agency actions covering the most important and controversial regulatory programs under the Clean Water Act. While new theories on liability, like the "groundwater conduit" theory, flow through the federal courts, a torrent of other issues related to the development and implementation of multi-state Total Maximum Daily Loads and the application of the EPA's water transfers rule are coming to a head nationwide. All of this is occurring along with the administration's deregulatory efforts, which include rescinding and potentially redefining "waters of the United States." Join this group of leading Clean Water Act authorities as they share their insights on the current state of the legal landscape, changes on the horizon, and solutions for clients during this era of increasing change.

Subject: Invitation to speak at ABA SEER fall conference

Hi David—I hope you are doing well and congratulations again on your confirmation! I hope everything is going well with the transition, and I'm sure you're having a rewarding experience at EPA.

ABA's Section on Energy, Environment and Resources would be honored to invite you to speak at the Fall conference in San Diego, California at the Marriott Marquis San Diego Marina on October 17-20, 2018 on a panel of leading Clean Water Act practitioners providing their perspectives on the latest legal developments. This panel will be held the morning of October 19, 2018, and a full description of the panel follows:

Breakout Session D1:

Staying afloat in the deluge of Clean Water Act developments

This year began with significant court decisions and unprecedented agency actions covering the most important and controversial regulatory programs under the Clean Water Act. While new theories on liability, like the "groundwater conduit" theory, flow through the federal courts, a torrent of other issues related to the development and implementation of multi-state TMDLs to address nutrient loadings and the application of the U.S. EPA's water transfers rule are coming to a head across the country. All of this is occurring along with the administration's deregulatory efforts, which include rescinding and potentially redefining "waters of the United States." Join this group of leading authorities on the Clean Water Act as they share their insights on the current state of the legal landscape, changes on the horizon, and solutions for clients during this era of increasing change.

Kristy Neihaus Bulleit (Hunton Andrews Kurth) will be moderating the panel that currently includes Brooks Smith (Troutman Sanders) and Steve Fleischli (NRDC) as speakers. Your perspective would be invaluable.

There is a long tradition of EPA officials speaking at SEER conferences, and I frequently serve as a liaison to make sure that we address all the questions/needs of the officials so they have a very positive experience. Matt Leopold and Bill Wehrum recently spoke at the Orlando spring conference, and we are inviting others from EPA for the fall conference in San Diego.

Thank you for considering this request, and please let me know if we can answer any questions. Best wishes -- Roger

Subject: ABA SEER Fall 2018 Conference - Clean Water Act Legal Developments Panel - response requested
Importance: High

Good morning:

Thank you all for participating in what will be a fantastic panel on the latest Clean Water Act legal developments at the ABA Section of Environment, Energy and Resource's [Fall 2018 Conference](#) in San Diego, CA. You may know one another already, but here is a list of who will be moderating and speaking on this panel:

- Kristy A. Niehaus Bulleit, Hunton Andrews Kurth LLP (moderator)
- Brooks M. Smith, Troutman Sanders LLP (speaker)
- David P. Ross, U.S. EPA's Office of Water (speaker)
- Steve Fleischli, NRDC (speaker)

You've all been invited to speak based on your expertise in the Clean Water Act. This is a very exciting and interesting time for Clean Water Act practitioners, and I could not imagine a better group of people to share their knowledge and experience in this important area of environmental law.

I would like to schedule our first planning conference call to discuss logistics related to the conference, topics to be covered on the panel, format of the panel, and responsibilities of the speakers and moderator. Please complete this [poll](#) to let me know your availability for our first planning conference call. Once I hear from all of you, I will send a meeting invite with an agenda and other relevant information.

Again, thank you all for being a part of SEER's Fall conference.

Best regards,
Gary

Hi David—

Just want to confirm our meeting is still on for the 23rd at 10 AM. It will be me and probably 6 or 7 others (my boss and members). If that is too many please let me know and we can cut that down. Just curious but who would be there from EPA? Looking forward to the meeting—I'll send a list of attendees as we get closer to the meeting. Thanks again for taking time out of your busy schedule to meet!

-----Original Appointment-----

Crystal, thanks so much for your response. Some of the UWAG representatives who need to attend this meeting are having difficulty with the proposed dates. If there is any way humanly possible that the Assistant Administrator could fit in a meeting with us some time the last week in February, we would be eternally grateful.

Crystal, I'm just following up on Dave's note. I'd be very grateful if you could get back to me as soon as possible with the dates/times you are considering, so I can let my clients know.

Many thanks,
Kristy

Hi Crystal,

Please add Kristy to my calendar in the near future. Here's her contact card link, and I think her cell is

Ex. 6

Please add her to my outlook contacts as well.

Thanks.

Dave
